

## **Public Sphere Club Constitution**

As of August 9, 2023

The Public Sphere Club is dedicated to revitalizing a public sphere on our college campus. In short, a public sphere is a space in which citizens gather to discuss public issues. This organization provides a space for students to sharpen their political sensibilities through participation and deliberation. We seek to empower students to advocate on behalf of themselves, and their political beliefs, while learning to navigate differences of opinion through conversation. We hold events where we connect students to dialogue about current events and the pressing political topics of our day. The Club is explicitly non-partisan and welcoming to all students.

### Officer Roles:

**President:** Manage membership lists, focus on event planning and building a plan for the club's future trajectory.

**Treasurer:** Manage club finances, request funds from ASCI Senate, plan future club budgets

**Secretary:** Record planning meeting notes, manage club account information (logins etc.) and cloud storage for said notes and records.
